

Bespoke, Own Label Lifejackets

Specify your own lifejacket to suit your market needs:

Choosing from:

- A wide range of cover options in design, fabric or colour
- 5 Different Bladder styles in various safety colours
- The Inflation Mechanism of your choice
- A range of Waist Belt and Harness options

International Safety Products

International Safety Products Ltd is one of the World's largest manufacturers of marine inflatable lifejackets, and a leading manufacturer and supplier of marine safety and survival equipment.

We use the very latest in textile technology and pursue an innovative design philosophy, ensuring production of safety equipment capable of performing to the highest standard in the most extreme of conditions.

Cover Designs

We have a wide range of outer cover designs from yoke styles through to belt attached pouch options. The designs are available in a wide range of fabrics from tough hard wearing pvc coated nylon or Cordura® to soft and comfortable polyurethane coated nylon. The cover designs satisfy every conceivable application from yachtsmen to fisherman and commercial users.

Wave Barrier Technology

The patented interlocking lobe design of the bladder used in this lifejacket self-rights the wearer in under 5 seconds and provides an effective *Wave Barrier* preventing water from being channelled into the airways.

The tailored neck design gives vital support to head and neck, even if subject is unconscious.

Harness and Waist Belt Option

A range of Harnesses and Waist Belts are available to ensure that the jacket is donned correctly, quickly and easily. Our standard 50mm webbings are manufactured from synthetic fibres to EN standards and are available with a range of options including stainless steel D-ring, double D-ring, stainless steel 2bar/3bar fasteners, plastic buckles, side adjusters, crotch straps or grab loop.

Accessories

A wide range of accessories and spare parts are available for all our lifejacket range including spray hoods, lights, crotch straps, and mesh bags. Spare parts are available in blister packs and include re-arming kits for inflation mechanisms and replacement CO2 cylinders.

Bespoke, Own Label Lifejackets

Bespoke, Own Label Lifejackets

Put your Brand on our products with total confidence. ISP understands that building and maintaining a brand is a demanding process requiring absolute attention to detail.

As a World leader in the manufacture and design of marine inflatable lifejackets we have the experience, specialist safety expertise and the total manufacturing efficiency, to offer you confidential support in developing your 'own label' jackets to fully complement your product portfolio.

Backing the market leaders

Catering for some of the biggest leisure brands in the business, we have supported the development of 'own label' jackets which fully complement their portfolio. We offer the widest possible choice of fabrics, buoyancies, inflation mechanisms and logo styling. Using the very latest designs and technologies available, ISP will work with you to ensure that lifejackets offered to the market are at the forefront of the industry demands.

Own Name Branding

ISP offer in-house silk screening, plus options for embroidery, heat applied logos, special performance fabric labels, warning/instruction labels and swingtags.

Product Packaging

Clear PVC hanging display bags or heavy duty nylon net options can also be personalised.

Safety and Approvals

ISP continues to lead the field in the design and manufacture of lifejackets, holding approvals to EN393-399 and EC Directive 96/98 on maritime equipment. Additionally we also work with other National Authorities to gain domestic recognition, for example Canada and Australia

International Safety Products History

ISP has developed from its original business in military clothing, accessories and inflatable lifejackets into one of the leading international suppliers of marine survival equipment.

From its research and development base over 20 years ago, the company has grown into one of the World's largest manufacturers of marine inflatable lifejackets.

Servicing

ISP recommends that all inflatable lifejackets be inspected on an annual basis by an authorised service outlet and/or after a full gas inflation.
