### International Safety Products

International Safety Products Ltd. is the World's largest manufacturer of marine inflatable lifejackets, and a leading manufacturer/supplier of survival equipment.

We use the very latest in textile technology and pursue an innovative design philosophy, ensuring production of safety equipment capable of performing to the highest standard in the most extreme of conditions.

## Tactical Waistcoat (Multi-role)

### Purpose

The Tactical Waistcoat is designed primarily for special waterborne units in all geographical areas of extreme and adverse climates. It is designed to carry essential equipment comfortably, with the optional safeguard of additional buoyancy for use tactically or in an emergency.

### Description

The waistcoat assembly includes equipment and communications pocketry as standard, with two modular front pockets locations and one modular back pocket location to carry an array of different ammunition, weaponry and ancillary equipment as pictured opposite.

A CE approved 275N life preserver is fitted to the upper section and around the back of the neck. The valise is zippered and can easily be removed when not required, or after inflation, allowing the operative to continue unhindered. The optional compact life preserver is operated by gas cylinder with an oral tube top up facility and is fully diveable.

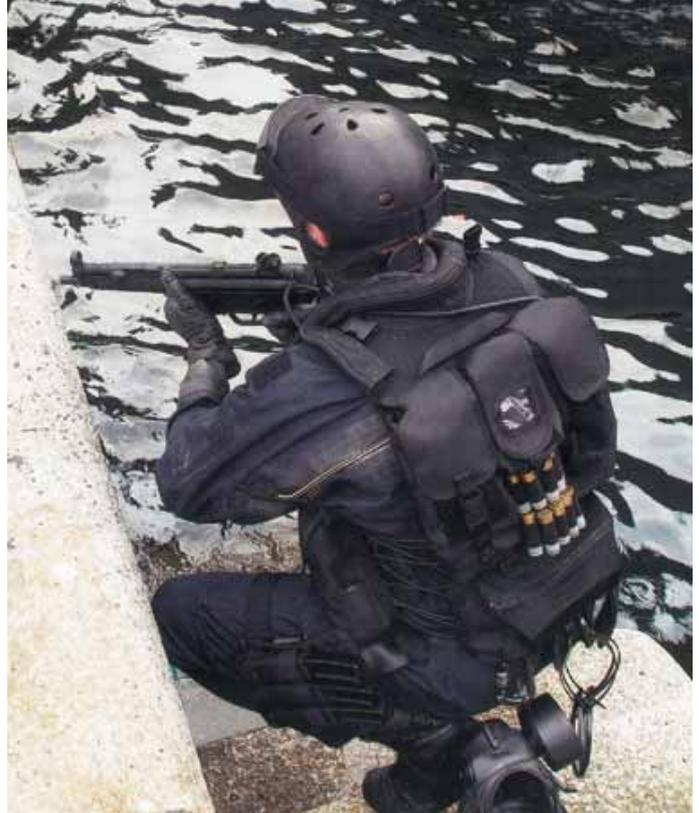

The waistcoat is made from heavy duty mesh affording excellent ventilation properties together with unrivalled durability. Rapid pocket drainage utilises either mesh backing or large eyelet holes. Size adjustment is made rapidly via shock cord (bungee) lacing at the sides.

### Technical Data

<b>Buoyancy</b>	300 Newtons
<b>Gas</b>	Carbon Dioxide
<b>Charge</b>	60gms
<b>Weight</b>	1.65kgs
<b>Colour</b>	Black, Olive, DPM, Sand
