

Sea Wind

Hansen Protection is proud to present the first ever survival suit that is custom designed to cover the specific needs of personnel working within the offshore wind farm industry and personnel engaged in offshore rope access technique.

The Sea Wind suit is very light and constructed to offer maximum ergonomics and comfort for the wearer. It is approved to meet the IMO/SOLAS regulations for an 1 hour immersion/AES suit without internal buoyancy.

The IMO/SOLAS buoyancy requirement will be covered when the user puts on an IMO/SOLAS life jacket.

The Sea Wind suit is fitted with watertight pit-zips to help ventilation and regulate the wearers temperature. It will also be fitted with a number of pockets to store tools and communication equipment, gloves, hood, a whistle and a buddy line. The suit will be delivered with watertight socks so the wearer can choose footwear of own choice.

Sea Wind is made of high performance Gore-Tex fabrics with good waterproof breathable properties.

SOLAS **ISO 15027**

- Drysuit w/feet and easy access
- Soft waterproof zip
- Pit-zips for enhanced ventilation
- Made in highly breathable GoreTex
- HiVis colour
- Reinforcement at exposed areas
- Mesh Pockets with room for hood, gloves and necessities (PLB, pens etc) + inner pocket
- Construction with special attention to freedom of movement
- Super Soft Neoprene closures in neck and wrists
- Also available with safety boots

hansenprotection.no

For tough and risky environments

- Ergonomy – pre-shaped construction with 100% freedom of movement
- Breathability – durable fabrics with highly breathable properties from GoreTex
- Lightweight – made as a shell product to reduce weight
- Ventilation – pit-zips (underarm-zips) to enhance ventilation in controlled situations
- Waterproof zip in collar for easy donning
- Pockets – roomy pockets constructed with mesh to enhance the breathable properties of the fabric and placed where they are of no hindrance to normal movement
- Also available with safety boots
- Gloves and hood in neoprene, lifting becket and pen-pocket
- For easy integration with safety equipment as harnesses and SeaLion lifejackets, the suit is “clean” on both chest and back
- The suit fulfils the requirements of the IMO/Solas LSA code, as a 1 hour immersion/quick donning suit without internal buoyancy
